

RADIO ART ZONE

Press release:

Radio Art Zone launches as a permanent online exhibition

Two thousand two hundred hours of original radio art, which were broadcast on Radio Art Zone over the summer, are now available to experience anew and rediscover in their original durational form.

Each of the one hundred 22-hour-long productions by international artists and groups that were commissioned for Radio Art Zone as part of the European Capital of Culture Esch2022 are now located on the individual artist pages of the radioart.zone website. After attracting more than 250,000 listeners during the live broadcast period, the website now offers this unique collection of contemporary radio art for radio fans, experimental sound enthusiasts and academic researchers alike.

In its archival incarnation Radio Art Zone preserves not only the visionary works of 200 international radio artists, but also the idea that groundbreaking programming can enable an entire radio station to be considered a work of art in itself.

Further information and audio-visual material can be found at <https://radioart.zone/press-material>
